TIME DATE

March 27, Thursday, 8:50 am

Breathing collapses, pulse oximetry alarms. I am praying, holding my father's hand, Nomeda holds his feet. Nobody comes to help us despite repeated calls to nurses station.

According to the Medical Director of Critical Care, Nursing probably knew that additional life support measures were not planned for my father!

**Falsified Record**

Dr. Weiner writes, "Case discussed with son. He does not wish any other treatment (x-rays, vent etc.) He wishes to be alone with his father while he dies."

Dr. Weiner fails to reference his undocumented visit the previous afternoon - during which he categorically refused my wish that my father be placed on a ventilator, explaining "We don't just intubate any time somebody asks."

DATE

Portable X-Ray enters at exactly 9:50 am, followed by Dr. Weiner.

**DISCHARGE SUMMARY**

decompensated again. Dr. Shamim and Dr. Kariya had a long conversation with the son again for further management because the patient needed intubation at the time. The family decided not to intubate the patient and continue the aggressive medical therapy with suctioning. The care was provided, but on March 27, 2003, the patient was found to be unresponsive, without any breathing, no pulse, no blood pressure and he was pronounced by the house staff. The patient expired due to respiratory failure, because of aspiration pneumonia and multiple other medical problems with sepsis.

Comment: DR. ELISE REILLY MET WITH THE SON ON 3/27/03 FROM 12:30 PM - 1:10 PM TO CLARIFY ISSUES REGARDING HIS FATHER'S STATUS. SHE INFORMED THE SON SHE WOULD CALL DR. WEINER TO NOTIFY HIM OF HIS CONCERNS & DESIRE TO SEE HIM. DR. WEINER'S OFFICE WAS CALLED PRIOR TO MEETING WITH SON. MESSAGE LEFT WITH OFFICE FOR DR. WEINER TO CONTACT DR. REILLY ON HER PAGER. DR. REILLY QUESTIONED SON ABOUT SUPPORT SYSTEM FOR HIM & SUGGESTED PALLIATIVE CARECONSULT. SON AGREED. DR. REILLY SAID SHE WOULD GET AN ORDER FOR THE CONSULT.

Patient still alive. Son states there was a misunderstanding and urgently requests clarification of his father's status, of Dr. Weiner's refusal to intubate the previous night and of the options still available. Son has plainly not signed off on "plan of care" to withhold treatment and to allow his full-code, non-terminal father to die.

Hospital fails to offer intubation pending resolution of status, fails to locate Weiner or covering doctor, "questions son about support system" and finally "suggests a palliative consult" one hour before death.

3/26/2003	8:30A	CHRIS CAMFIELD, R.N.	UNABLE TO DETERMINE

Notes: CHRIS CALLED THE CUSTOMER RELATIONS OFFICE TO F/U A DISCUSSION REGARDING MR. AL NEUSTADTER'S BEHAVIOR ON 3/25/03. SHE SAID MR. NEUSTADTER HAD GIVEN HIS FATHER ICE CHIPS, APPLE JUICE & H2O. CHRIS OBSERVED HIM PUSHING ICE CHIPS DOWN HIS FATHER'S THROAT\* DAD HAS A FEEDING TUBE. SON WAS ALSO NOTED ADJUSTING HIS DAD'S OXYGEN.

Falsified record  
Implausible next-day phone call from Nurse Canfield to inform Patient Relations that she witnessed son "pushing ice chips down his father's throat" the previous day.

This was likely inserted to demonstrate contributory negligence for legal purposes. My father was never given ice at any time.

Can a hospital falsify records with impunity?

3/25/03 CRC PRESENT DURING DISCUSSION BTWN CHRIS & AL NEUSTADTER. CHRIS ASKED SON, FROM THIS POINT FORWARD NOT TO TOUCH THE EQUIPMENT AT HIS FATHER'S BEDSIDE OR TO FEED HIS FATHER ANYTHING. CHRIS PROMISED THE SON THAT THE STAFF WOULD PROMPTLY RESPOND TO ANY REQUESTS HE MADE FOR HELP WITH HIS DAD & THE SON PROMISED CHRIS HE WOULD NOT

\*Nurse Canfield testified that she did not recall the incident or the patient, but that if she had witnessed such behavior she would have documented it contemporaneously rather than calling to report it the following day.
