Re: Israel Neustadter
DOB: 4/14/1911
Rec #: 815510

Dear Mr. Neustadter:

Pharmacy printout obtained by court order shows 40% of prescribed abx doses were never dispensed by hospital pharmacy.

On July 7, 2003 you requested a copy of a detailed **pharmacy printout** of all dispensed medications on patient Israel Neustadter, medical record number 815510. **This type of report is not considered part of the medical record therefore; we are not able to honor your request.** Attached you will find a copy of the Maryland Code, Health-General, 4-301, which defines the contents of a medical record.

The type, dose, mode, and time of dispensed medications during a patients stay at the hospital can be located in the Medication Administration Record also known as the Kardex. This document can be found in the patient's medical record, copies of which were given to you on May 6, 2003.

If you have any questions regarding the above matter, please call Sarah Shulman at the General Counsel's Office at (301) 754-7464.

Sincerely,

Ileana Sosa Urgell, MS, RHIA
Records Control Manager
Medical Records Department
