**Re: Alexander H. Neustadter, et al. v. Holy Cross Hospital of
Silver Spring, Inc.
No. 12, September Term, 2010**

Dear Bessie:

I write to advise that there is an incorrect statement of fact in the Opinion authored by Judge Greene. I request that this statement be corrected prior to formal publication. On page 3 of the slip opinion (the second full paragraph under "Facts and Procedural History"), the Court states that, with respect to Petitioner's initial Motion to Suspend Trial Days for Religious Holidays, "Respondent opposed the motion." This is incorrect. Respondent took no position on Petitioner's *initial* Motion. The co-Defendant, Dr. Nawaz filed an opposition to the Motion; however **Respondent Holy Cross Hospital did not take a position on the initial motion***. Please see page 25 of The Joint Record Extract.

Respondent consciously chose to neither formally consent nor formally oppose the Petitioner's initial request. Thus, the Court's statement does not accurately reflect the course of events. I would respectfully request that the Court amend this opinion to reflect that "Respondent took no position on this initial motion."

Please do not hesitate to contact me if there are any questions or concerns about this request. Please also advise me if I need to submit this request in another format for consideration. Thank you for your attention to this matter.

* Holy Cross Hospital's *actual* position was that they refused to consent to the initial motion to suspend trial for Shavuos.
